

Workers Comp Claims (Jopari)

1. Edit session. Go to tab labeled OTHER. On line 24 extra Narrative enter the following.
 - a. Type in Y4 (this part needs to be the WC accident # or unknown) SY (SSN of patient)

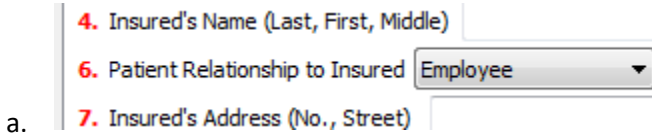

The screenshot shows a software interface with a text input field. The field is labeled 'Extra Narrative' and contains the text 'Y4 123456789 SY 012345678'. The number '24.' is visible to the left of the field. Above the field, there is a label 'Type of Service' with a dropdown menu. Below the field, there is a label 'Patient Type' with a dropdown menu.

2. Edit the patient facesheet.
 - a. Enter the first part of the Employer name in the Last Name field.
 - b. Enter the last part of employer name in the First Name field.

The screenshot shows a patient facesheet form. The form has a header with tabs: 'Patient', 'Library Links', and 'Appointment Reminders'. Below the header, there are several fields: 'Account number: AB', 'First Name: Inc.', 'Last Name: General Motors', and 'MI:'. The 'MI' field is empty.

3. Also on the facesheet, go the Insurance Co page. Set the Patient relationship field Employee

The screenshot shows an insurance form. The form has several fields: '4. Insured's Name (Last, First, Middle)', '6. Patient Relationship to Insured' (set to 'Employee'), and '7. Insured's Address (No., Street)'. The 'Patient Relationship to Insured' field is a dropdown menu.
