

Transmit claims, receive electronic remittance, and send electronic patient statements quickly and securely to multiple payers through a single service

Managing the submission of claims to multiple payers can be time consuming and inefficient. The Netsmart ClaimsConnect Electronic Data Interchange (EDI) service provides a HIPAA-compliant way to easily transmit claims, receive electronic remittance, and send electronic patient statements quickly and securely.

Integrated with Helper, ClaimsConnect delivers on the promise that EDI will change the way your practice operates. Submitting claims to multiple payers can be a painstaking and time consuming process, especially when you consider the varying formatting requirements from payer to payer. With ClaimsConnect, you can create all of your claims in a single, standard 837 format, and let ClaimsConnect format and route the claims to multiple payers. Similarly, ClaimsConnect receives electronic remittance files from multiple payers and facilitates consistent cash application. ClaimsConnect also provides a familiar user interface and user-friendly reports to further enhance your billing process.

ELECTRONIC PATIENT BILLING

yet tedious, tasks for any practice. The Explanation of Benefits (EOB) manual posting process is prone to error and leaves little time or energy to examine the EOB for systemic problems. Furthermore, any delays in posting add time to your cash cycle, which costs you even more money. ClaimsConnect Remit provides your practice with the tools needed to perform these tasks electronically and eliminate the waste and errors impacting your revenue.

ClaimsConnect Remit enables you to:

- Expedite payments
- Increase cash flow
- Reduce errors
- Have more time for EOB analysis
